Wasserman, Daniel 83
Weiner, Barry M. 29, 81
Wicker, Donna 161
Wilson, Steven E. 177
Zambonin, Piergiorgio 101
Zurawski, Christine A. 248

Subject Index

Acanthamoeba
Early diagnosis of infectious keratitis with in vivo real time confocal microscopy, 197

Accommodative esotropia
Tangent streak CLs in accommodative esotropia, 56

Acetone
Diffusion of volatile organics through CLs, 41

Allergy
Allergic ocular disorders, 117
Treatment of GPC with Cromolyn, 46

Astigmatism
Biaspheric CL for astigmatism following PK, 29
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177
Fitting the SoftPerm contact lens after keratoplasty, 170
Postkeratoplasty astigmatism following placement of anterior chamber lenses and transsclerally sutured posterior chamber lenses, 108
Quantitation of microbes on patient worn-and-handled lenses, 87
SoftPerm lens for correction of irregular astigmatism, 173

Biaspheric lens
Biaspheric lenses in RXD material, 81

Subject Index

Acanthamoeba
Early diagnosis of infectious keratitis with in vivo real time confocal microscopy, 197

Accommodative esotropia
Tangent streak CLs in accommodative esotropia, 56

Acetone
Diffusion of volatile organics through CLs, 41

Allergy
Allergic ocular disorders, 117
Treatment of GPC with Cromolyn, 46

Astigmatism
Biaspheric CL for astigmatism following PK, 29
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177
Fitting the SoftPerm contact lens after keratoplasty, 170
Postkeratoplasty astigmatism following placement of anterior chamber lenses and transsclerally sutured posterior chamber lenses, 108
Quantitation of microbes on patient worn-and-handled lenses, 87
SoftPerm lens for correction of irregular astigmatism, 173

Biaspheric lens
Biaspheric lenses in RXD material, 81

Bifocal CLs
Clinical evaluation of two multifocal soft CLs, 237
Contrast sensitivity with the echelon diffractive bifocal compared to spectacles, 161
Tangent streak CLs in accommodative esotropia, 56

Blepharitis
GPC and meibomian Gland dysfunction blepharitis, 165

Blinking
Architecture of the lid-cornea juncture, 187

Books reviewed
Ophthalmology clinics of North America: corneal and external disease, 18

Cataract
Combined surgical management of cataract and glaucoma, 203

Collagen shields
Collagen shields containing tobramycin for sustained therapy of *Pseudomonas* keratitis, 245
Complications of collagen corneal shields, 14

Contact Lenses (CLs)
Architecture of the lid-cornea juncture, 187
Argon laser fenestration of a softperm contact lens, 95
Biaspheric CL for astigmatism following PK, 29
CL articles in the literature, 193
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177
CL related *Fusarium solani* keratitis, 125
Clinical evaluation of two multifocal soft CLs, 237
Comparative efficacy of CL disinfection solutions, 34
Contamination in CL care systems, 105
Contamination of hydrophilic CLs after patient handling and after removal from the eye, 240
Contrast sensitivity with the echelon diffractive bifocal compared to spectacles, 161
Corneal topographic data: its use in fitting CLs, 83
Diffusion of volatile organics through CLs, 41
Effect of tert-butyl hydroperoxide on rabbit corneal epithelium, 97
Effect of pregnancy on corneal curvature, 256
European fitting philosophy for Aspheric, High-Dk RGP CLs, 232
Examining protein deposits on soft CLs, 101
Fitting the SoftPerm contact lens after keratoplasty, 170
LDH, MDH and albumin levels in tears with ocular surface toxicity, 260
Microbial changes in the ocular environment with CL wear, 53
Morphologic effects of CL wear on the corneal surface, 49
Multi-item microbial challenge test in ophthalmic disinfectant testing, 155
Quantitation of microbes on patient worn-and-handled lenses, 87
Residual hydrogen peroxide as a function of platinum disc age, 149
Retrospective study of disposable extended wear lenses in 100 patients, 229
SoftPerm lens for correction of irregular astigmatism, 173
Treatment of GPC with Cromolyn, 46

Confocal microscopy
Early diagnosis of infectious keratitis with in vivo real time confocal microscopy, 197

Conjunctival transplant
A modified technique for conjunctival transplant, 112

Contamination
Contamination in CL care systems, 105

Contrast sensitivity
Contrast sensitivity with the echelon diffractive bifocal compared to spectacles, 161

Cornea
Architecture of the lid-cornea juncture, 187
Collagen shields containing tobramycin for sustained therapy of *Pseudomonas* keratitis, 245
Early diagnosis of infectious keratitis with in vivo real time confocal microscopy, 197
Effect of pregnancy on corneal curvature, 256
Effects of tert-butyl hydroperoxide on rabbit corneal epithelium, 97

Corneal epithelium
Morphologic effects of CL wear on the corneal surface, 49
Retrospective study of disposable extended wear lenses in 100 patients, 229

Corneal molding
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177

Corneal topography
Corneal topographic data: its use in fitting CLs, 83
Enigma of the corneal contour, 267
Practical aspects of a corneal topography system, 248

Cromolyn
GPC and meibomian Gland dysfunction blepharitis, 165
Treatment of GPC with Cromolyn, 46

Disinfection
Comparative efficacy of CL disinfection solutions, 34
Effects of tert-butyl hydroperoxide on rabbit corneal epithelium, 97
Multi-item microbial challenge test in ophthalmic disinfectant testing, 155
Residual hydrogen peroxide as a function of platinum disc age, 149

Disposable lenses
Do disposable contact lenses really make a difference? 80
Retrospective study of disposable extended wear lenses in 100 patients, 229

Dry eye
Treating dry eye, 14

Echelon contact lens
Contrast sensitivity with the echelon diffractive bifocal compared to spectacles, 161

Editorial
An invitation to the 1993 CLAO Annual Meeting, 218
Baby boomers, 216
CLs in the industrial workplace, 11
Leadership and the new CLAO, 8
Learning about CLAO, 78
Meeting and journals-how we learn, 76
Professional malaise—What can we do about it? 135
Reflections of a CLAO past president, 139
The education of an editor, 7

Envision lens
Biaspheric CL for astigmatism following PK, 29

Ether
Diffusion of volatile organics through CLs, 41

Extended wear
Menicon SF-P RGP lenses for extended wear, 183

Fenestration
Quantitation of microbes on patient worn-and-handled lenses, 87

Fusarium solani
CL related fusarium solani keratitis, 125

Giant papillary conjunctivitis (GPC)
Allergic ocular disorders, 117
GPC and meibomian gland dysfunction blepharitis, 165
Protein Deposits on CLs from patients with and without GPC, 143

Glaucoma
Combined surgical management of cataract and glaucoma, 203

Hydrogel contact lenses (see Soft contact lenses)

Hydrogen peroxide
Comparative efficacy of CL disinfection solutions, 34
Effects of tert-butyl hydroperoxide on rabbit corneal epithelium, 97
Residual hydrogen peroxide as a function of platinum disc age, 149

Immunoglobulins
Protein Deposits on CLs from patients with and without GPC, 143

Intraocular lens
Combined surgical management of cataract and glaucoma, 203
Postkeratoplasty astigmatism following placement of anterior chamber lenses and transsclerally sutured posterior chamber lenses, 108

Keratoconus
Corneal topographic data: its use in fitting CLs, 83
Early diagnosis of infectious keratitis with in vivo real time confocal microscopy, 197
Keratoconus Associated with ectodermal and mesodermal anomalies, 141
SoftPerm lens for correction of irregular astigmatism, 173

Lens care system
Contamination in CL care systems, 105

Letters to the editor
Biaspheric lenses in RXD material, 81
Complications of collagen corneal shields, 14
Do disposable contact lenses really make a difference?, 80
Keratoconus Associated with ectodermal and mesodermal anomalies, 141
Treating dry eye, 14

Meibomian gland dysfunction
GPC and meibomian Gland dysfunction blepharitis, 165

Menicon SF-P lens
Menicon SF-P RGP lenses for extended wear, 183

Microbial challenge test
Multi-item microbial challenge test in ophthalmic disinfectant testing, 155

Microbial contamination
Contamination of hydrophilic CLs after patient handling and after removal from the eye, 240
Quantitation of microbes on patient worn-and-handled lenses, 87

Morphology
Morphologic effects of CL wear on the corneal surface, 49

Ocular surface toxicity
LDH, MDH and albumin levels in tears with ocular surface toxicity, 260

Ocular flora
Microbial changes in the ocular environment with CL wear, 53

Ophthalmology literature
CL articles in the literature, 193

Patient handling
Quantitation of microbes on patient worn-and-handled lenses, 87

Penetrating keratoplasty
Biaspheric CL for astigmatism following PK, 29
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177
Fitting the SoftPerm contact lens after keratoplasty, 170
Postkeratoplasty astigmatism following placement of anterior chamber lenses and transsclerally sutured posterior chamber lenses, 108
SoftPerm lens for correction of irregular astigmatism, 173

Presbyopia
Clinical evaluation of two multifocal soft CLs, 237
Contrast sensitivity with the echelon diffractive bifocal compared to spectacles, 161

Protein deposits
Examining protein deposits on soft CLs, 101
Protein Deposits on CLs from patients with and without GPC, 143
Quantitation of microbes on patient worn-and-handled lenses, 87

Pterygium
A modified technique for conjunctival transplant, 112

Quaternary ammonium
Contamination in CL care systems, 105

RGP contact lens
CL manipulation of corneal topography after penetrating keratoplasty: A preliminary study, 177
European fitting philosophy for Aspheric, High-Dk RGP CLs, 232
Menicon SF-P RGP lenses for extended wear, 183

Safety
CLs in the industrial workplace, 11
Diffusion of volatile organics through CLs, 41

Seasonal allergic conjunctivitis
Allergic ocular disorders, 117

Specular microscopy
Morphologic effects of CL wear on the corneal surface, 49

Soft contact lenses
Diffusion of volatile organics through CLs, 41
Examining protein deposits on soft CLs, 101
Quantitation of microbes on patient worn-and-handled lenses, 87

SoftPerm contact lens
Fitting the SoftPerm CL after keratoplasty, 170
SoftPerm lens for correction of irregular astigmatism, 173

Surgery
A modified technique for conjunctival transplant, 112
Postkeratoplasty astigmatism following placement of anterior chamber lenses and transsclerally sutured posterior chamber lenses, 108

Tangent streak contact lenses
Tangent streak CLs in accommodative esotropia, 56

Tear film
Architecture of the lid-cornea juncture, 187
LDH, MDH and albumin levels in tears with ocular surface toxicity, 260
Protein Deposits on CLs from patients with and without GPC, 143

Toluene
Diffusion of volatile organics through CLs, 41

Trichloroethylene
Diffusion of volatile organics through CLs, 41

Vernal conjunctivitis
Allergic ocular disorders, 117
